## BLADDERWRACK SUPERSERUM

The Nordic seaweed innovation redefining result-driven skincare

## From the Baltic Sea to breakthrough skincare

### About the Product

Developed and manufactured in Finland by Saaren Taika, the Bladderwrack Super Serum represents a breakthrough in Nordic result-driven skincare.

Its efficacy is powered by two proprietary seaweed innovations:

- Fucus DuoActive® and
- Fucus Fusion®

both derived from wild-harvested bladderwrack collected along the protected shores of the Baltic Sea.

These extracts deliver maximum bioactive concentration, helping to strengthen the skin barrier, smooth wrinkles, and calm redness while maintaining optimal hydration and comfort — even for sensitive skin.

### Purity & Safety

Formulated and manufactured in Finland under strict quality standards, using wild-harvested Baltic Sea bladderwrack for Fucus DuoActive® and Fucus Fusion®, each batch carefully analyzed for purity and safety.

### Clinical Results in 28 Days

Independent clinical studies showed that Bladderwrack Super Serum delivers visible, statistically significant improvements in overall skin condition within 28 days:

- 29.9% wrinkles
- 37.1% pores
- 39.6% pigmentation
- 53.3% redness
- 73.9% itching
- +14.3% firmness

100% of participants reported their skin felt more hydrated, softer, and smoother, while 95% noticed visibly fewer wrinkles and a healthier, more youthful appearance.

## Composition & Key Actives

Powered by Fucus DuoActive® and Fucus Fusion®  
Two proprietary bladderwrack extracts developed by Saaren Taika, combining the power of Nordic seaweed bioactives to visibly smooth, firm and protect sensitive skin.

Fucus DuoActive® & Fucus Fusion®  
Wild-harvested bladderwrack extracts rich in polyphenols, fucoidan and alginates.  
+ Strengthen the skin barrier, deeply hydrate, calm redness and support cell renewal.

Argireline® Amplified peptide  
Next-generation Acetyl Hexapeptide-8 complex.  
+ Reduces wrinkle area by –11.3% in 5 days, improves facial relaxation and boosts collagen by +25.9%.

Matrixyl® synthe6  
Palmitoyl Tripeptide-38 to stimulate collagen, hyaluronic acid and laminin production.  
+ Reduces wrinkle depth and improves smoothness for a plumper, firmer skin appearance.

NovoRetin™  
Natural retinol alternative that boosts retinoic acid levels in skin without irritation.  
+ Improves elasticity by +20.4%, density by +13.8%, and reduces pore size and shine.

Niacinamide (Vitamin B3)  
+ Brightens, evens skin tone, and strengthens the skin barrier for visibly smoother, more radiant skin.

## Comprehensive testing confirms:

- Free from heavy metals, pesticides and microplastics
- Microbiologically clean and toxin-free
- Dermatologically tested – suitable even for sensitive and eczema-prone skin
- Formulated without parabens or silicones

## Clinically proven efficacy from wild-harvested Nordic bladderwrack

### Clinical Studies

Independent studies confirm that Bladderwrack Super Serum delivers visible and statistically significant results within 28 days:

- 29.9% reduction in wrinkles
- 18.8% reduction in skin laxity
- +14.3% improvement in firmness and elasticity
- 37.1% smaller pores
- 39.6% reduction in pigmentation
- 53.3% reduction in redness
- 73.9% reduction in itching
- 20.7% reduction in transepidermal water loss (TEWL)

100% of participants reported their skin felt hydrated, nourished, softer, smoother, and more youthful, while 95% noticed visibly fewer wrinkles and lines after just 4 weeks.

Results were observed in 28 ±2 days of twice-daily application under dermatological supervision on 20 volunteers aged 40-70 with sensitive or eczema-prone skin.

### Exceptional Bioactive Potency of Baltic Bladderwrack

Independent analysis confirms the unique composition of our Baltic *Fucus vesiculosus*.

The material contains essential bioactives, including polysaccharides and antioxidants. Crucially, its Fucoian concentration was measured at an exceptional 21.39%—more than double the average content (approx. 10%) commonly reported for Atlantic sources.

This superior potency delivers:

- **Exceptional Soothing:** Clinically shown to significantly reduce itching.
- **Anti-Aging Support:** Enhances elasticity and helps reduce the look of wrinkles.
- **Strong Protection:** Provides robust antioxidant and barrier-strengthening properties.

The Baltic's challenging environment creates this unmatched potency, making it a uniquely effective ingredient for advanced skincare.

## Erythema & irritation

Reduction in facial redness and visible irritation after 28 days of use.

→ -53.3% reduction in redness (erythema)

→ -73.9% reduction in itching and irritation

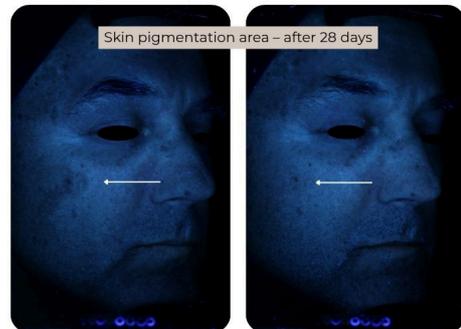

## Hyperpigmentation

Reduction in hyperpigmentation and UV-induced dark spots after 28 days of use.

→ -39.6% reduction in pigmentation

→ +14.3% improvement in skin tone

## Wrinkles & expression lines

Reduction in crow's feet and facial expression lines after 28 days of use.

→ -29.9% reduction in total wrinkle area

→ -18.2% reduction in wrinkle depth

→ -17.0% reduction in wrinkle length

## Pore size

Visible decrease in pore size and surface roughness.

-37.1% reduction in visible pore size after 28 days of use.

# SAAREN TAIKA

## Clinically Proven Efficacy – Nordic Clean Beauty from Finland

### Premium skincare for reactive and sensitive skin.

Saaren Taika is a family-owned Finnish brand built on three generations of craftsmanship and a passion for natural innovation. We create clinically proven Nordic clean beauty designed to support reactive and sensitive skin.

### Bladderwrack Skincare Collection – The Power of the Nordic Sea for Your Skin

Developed and manufactured in Finland, this collection combines scientifically backed active ingredients with sustainably wild-harvested Baltic bladderwrack to soothe, strengthen, and renew the skin's natural balance.

Experience Finnish honesty, authenticity, and the calm of pure Nordic nature.
